DESCRIPTION OF TRANSACTION OR EVENT

Describe the transaction or event, using additional sheets if necessary. Tell us WHAT happened, WHEN it happened, WHERE it happened, and WHY it was unfair or deceptive. Attach COPIES of all contracts, letters, receipts, advertisements, or any other papers that relate to your complaint.

The incident started when the Borough Mayor was drunk and driving the Borough Vehicle and had a young girl in the vehicle with him. He almost hit another vehicle and the person (Chris Lie) was driving at the time. Chris decided to film the incident with his phone and was showing it to others in the community, he showed the video to our Public Services Director and then he notified me about it. I was the Chief of Staff for the Borough at the time and notified the Mayor. I told our Mayor (Clement Richards) that he needs to go talk to Chris about the situation. Clement notified me that Chris agreed to delete the video and told Clement to not do that again.

This last December we were in a very contentious meeting regarding the Kivalina Project. Sandy Beaver (the Chairman for the School District) put out a very unprofessional campaign on facebook regarding the issue and lobbied the Assembly on the situation (which i feel violates the "open meetings act"). While we were having the Borough Retreat in Seattle in late December, we had a special meeting regarding the situation in Kivalina. The contractor for the project at the time was Remote Solutions, who we hired to "fasttrack" the Kivalina Project and they were in Seattle presenting the project to the Assembly as well. During the meeting our Mayor Clement Richards received a phone call from Chris Lie and Clement had me listen in to the conversation. He told Clement if he didn't get rid of the "Baker Boys" that he would have to show everyone the video. I told him that was Blackmail and Clement was very frustrated about the whole situation. After the retreat, when the Mayor was heading home he had a meeting with Sandy in Anchorage. Once he got back, he told me that i couldn't talk about the "Baker Boys" and I told him he couldn't do that since they still had an active contract with the Kivalina Project. He fired me and eliminated the contract with Remote Solutions. I believe that they still have not gotten paid for the EA work that was done.

I notified the Local Police Chief of this situation since that I strongly believe that "Blackmail" was used to convince the Mayor to head in a different direction. I also firmly believe that there was some serious ethic issues that occurred during that time and am hoping someone can investigate the situation. I believe also that there was Blackmail used but also potential extortion since there was alot of monies involved.
